General advice: Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

Route of Exposure

If swallowed: Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Rinse mouth with water. Do not induce vomiting without medical advice.

In case of skin contact: Immediately wash skin with soap and copious amounts of water. Seek medical attention if irritation persists.

In case of eye contact: In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Seek medical attention if irritation persists.

If inhaled: If inhaled, move to fresh air, if breathing becomes difficult. If not breathing, institute cardiopulmonary resuscitation (CPR). Seek medical advice.

Most important symptoms and effects, both acute and delayed: See section 2 and/or section 11.

Recommendation for immediate medical care and special treatment needed: No data available.
