Plant Tissue Culture Bioreactors

Liquid Lab

NAME/DESCRIPTION	FORMAT	SIZE	UNIT	CATALOG #	LIST PRICE	YOUR PRICE
<p>Liquid Lab Vent Patch/ Breathable patch with a 0.2 micron membrane that enables gas exchange in virtually any type of tissue culture vessel. The patch is bonded to a non-woven Polyester® for strength and is durable enough to withstand multiple passes through an autoclave. The Liquid Lab Patch® is made to withstand the rigors of a tissue culture lab with a Gurley airflow of 17 seconds/100cc/SI, water intrusion pressure of +50psi and a burst strength of 21psi. Each vent patch measures 1.75 inches (45 mm) x 1.375 (36 mm) and will cover a vent port 1 inch (2.5 cm) x 0.625 inch (1.75 cm) or smaller.</p>		10	PC	CSVENT-10PC	Inquire	Inquire

<p>Liquid Lab Shelf™ - M200/ Unit is designed to be used in large scale plant production labs. Standing at nearly eight feet tall, the M200 can hold up to two hundred vessels, on ten shelves. Unit comes standard with ten shelves, ten high output lights, control panel, and two hundred Southern Sun Liquid Lab™ vessels with vent-patches and lids. Dimensions are 90" high x 63.75" long x 29.75" wide. These units are made to order. Please allow 6-8 weeks for delivery. A video presentation of Liquid Lab Shelf™ can be viewed at http://youtu.be/xWHfAIB52Ko.</p>		1	Unit	M200-1PC	Inquire	Inquire

<p>The Rocker Kit™ - M36/</p> <p>The M36 unit is designed for small scale plant production and research. The size and weight of the unit permits it to be placed on shelf or tabletop. This unit comes standard with two rocking shelves, two high output lights, control panel, and thirty six Southern Sun Liquid Lab™ vessels with vent-patches. Dimensions are 3.5' high x 4' long x 2.5' wide. These units are made to order. Please allow 6-8 weeks for delivery.
